**To:** Sanchez, Rafael [Sanchez.Rafael@epa.gov]; Yellin, Patrick [Yellin.Patrick@epa.gov]  
**CC:** Lischinsky, Robert [Lischinsky.Robert@epa.gov]  
**Subject:** suggested changes to website language

A few things on your website you should consider revising. On your database page, you may want to change this language, now that May 15 has passed:

- \_ Only Show Currently Certified Models that are 2020 NSPS Compliant
- \_ Include Previously Certified Models That Are Out of Production

on

On this page, the Background and Key Terms page, I would add the following language in red.

**Step 1:** in compliance with the emission limits when the rule became effective on May 15, **2015**

**Step 2:** in compliance with emission limits 5 years after the effective date, **which is May 15, 2020.**

Sincerely,

John Ackerly
